

Your Audio/Video Selector Switch lets you easily switch between three audio/composite video devices such as DVD players, VCRs, and video game consoles for viewing on one television. No need to plug and unplug the cable for each device, each time you plan to use it.

PACKAGE CONTENTS

- Audio/Video Selector Switch
- Quick Setup Guide

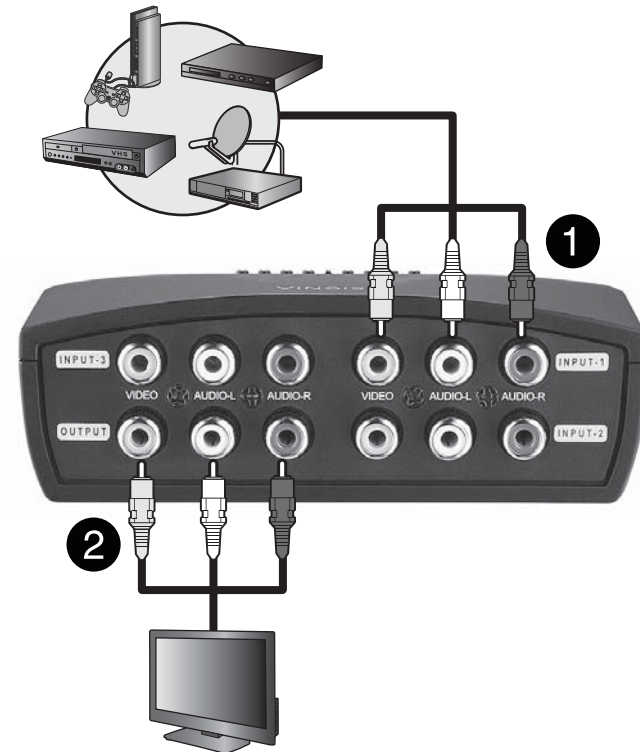

Note: You'll need your own AV cables to make your device connections.

SETTING UP YOUR SELECTOR SWITCH

- 1 Plug the AV cable into the **INPUT 1** jacks on your selector switch. Plug the other end into the **OUTPUT** jacks on your audio/video device. Repeat this step to connect two additional devices to your selector switch.

Note: The connectors are color-coded yellow for video, red for audio R and white for audio L.

- 2 Plug the AV cable into the **OUTPUT** jacks on your selector switch. Plug the other end into the **INPUT** jacks on your TV.

USING YOUR SELECTOR SWITCH

- 1 On the TV or home theater receiver, select the video input source your selector switch is connected to. For information on how to select a video input source, see the documentation that came with the TV or home theater receiver.
- 2 To view your audio/video device on your TV, slide the input selector button on top of your selector switch to **INPUT 1**, **INPUT 2**, or **INPUT 3**.

TROUBLESHOOTING

There is no sound or video coming from my TV or A/V receiver.

- Make sure your TV and/or A/V receiver is set to the proper input.
- Make sure that all cables are securely connected.
- Make sure that the audio and video formats of the content being used (i.e., Blu-ray disc) are supported by all connected devices.

ONE-YEAR LIMITED WARRANTY
